

CONDUCTOR FASTENERS	
Copper fastener for tape conductors up to 40x6mm <u>Part number ELEMKO : 61 21 240</u>	
<u>Description</u>	
<p>Conductor fastener, part number ELEMKO 61 21 240, suitable for fastening tape conductors up to 40x6mm, on brick or concrete walls. It is made out of copper (Cu) and it is equipped with a wood fixing screw and a copper (Cu) spacer formed to receive the PVC sealing washer (part number ELEMKO 61 03 201). The conductor's tightening is achieved by two stainless steel screws M6 x 16mm, according to EN ISO 1207. The PVC wall plug $\varnothing 8$ is not included.</p>
