

**LIGHTNING PROTECTION AND EARTHING SYSTEM COMPONENTS**

**Bimetallic contact CUP-AL  
Part number ELEMKO : 65 10 105**

Description

Bimetallic contact CUP-AL, class "H" (Heavy duty), made out of copper (Cu) and aluminum (Al), with dimensions 25x30x1mm and one hole Ø11mm. It is suitable to be installed between copper surfaces and aluminum or steel surfaces, in order to avoid any electrochemical corrosion.

Technical data – Installation instructions

Installation	➤ Outdoor
Lightning current withstand capability	➤ CLASS H – 100kA (10/350µs)
	➤ 50 Coulomb
	➤ 2.5 MJoule / Ohm
Mechanical tensile force	➤ 900 N ± 20 N
