

BRIDGING COMPONENT FOR SPDs

Part number ELEMKO : 68 04 016

Introduction

Component for bridging the Neutral of surge protective devices in three phase systems (3+1 connection). Suitable for surge protective devices with width 1 module (17,5 mm) per pole.

Technical data

Number of poles	4
Cross section	16 mm ²
Material	Copper
Suitable for wiring	3+1 (3 module between L-N + 1 module between PE-N)
Appropriate for SPDs	Width 1 module (17,5 mm) / pole
