SODIMAS est une technologie brevetée innovante unique au monde.

FUJI JP utilizes comprehensive technological infrastructure that aims to further enhance the leading edge technologies and quality to respond to market expectations and requirements for safe, comfortable and high efficient elevators and escalators.

Elevating your World.

Doppler's cargo lifts are forged to withstand every hardship, satisfying even the most demanding requirements of functionality. Some of the main features are:

- Stiffness
- Safety
- Reliability
- Aesthetics
- Ease of installation.

Doppler's car lifts construction is thought out to the smallest detail, and they are winning the best impressions since they are installed in busy private and public parking areas, continuously transporting every vehicle with outmost safety.

DIAMOND QUARTZ

HOME ELEVATOR SOLUTIONS

Our **homelift** enhances your home or place of business and brings a new level of quality in your life with its special features:

- **Power supply:** Mono-phase 230V.
- **Minimum required pit:** 17cm.
- **Minimum required overhead:** 235cm for swing doors and 260cm for automatic doors.
- Shaft can be supplied if there isn't an existing concrete shaft.

It's designed and manufactured according to Green Energy Principles and it reduces energy consumption and consequently the emissions of CO2 up to 70%.

Supra wheelchair platform lift has been specifically developed for curved stairs and for installation on the inner side of the staircase. This guarantees that people with a limited mobility are able to overcome them. Additionally, stairs are kept accessible for other users at all times due to the compact size and fold-away platform, which can also be parked “around the corner”.

The Flow chairlift has achieved many prestigious industry awards for design and innovation and is the number 1 stairlift in terms of quality and value for money.

- Adjusted to your height
- Patented Swivel Technology
- Discreet, foldaway design
- A range of upholstery options
- Quick and efficient installation

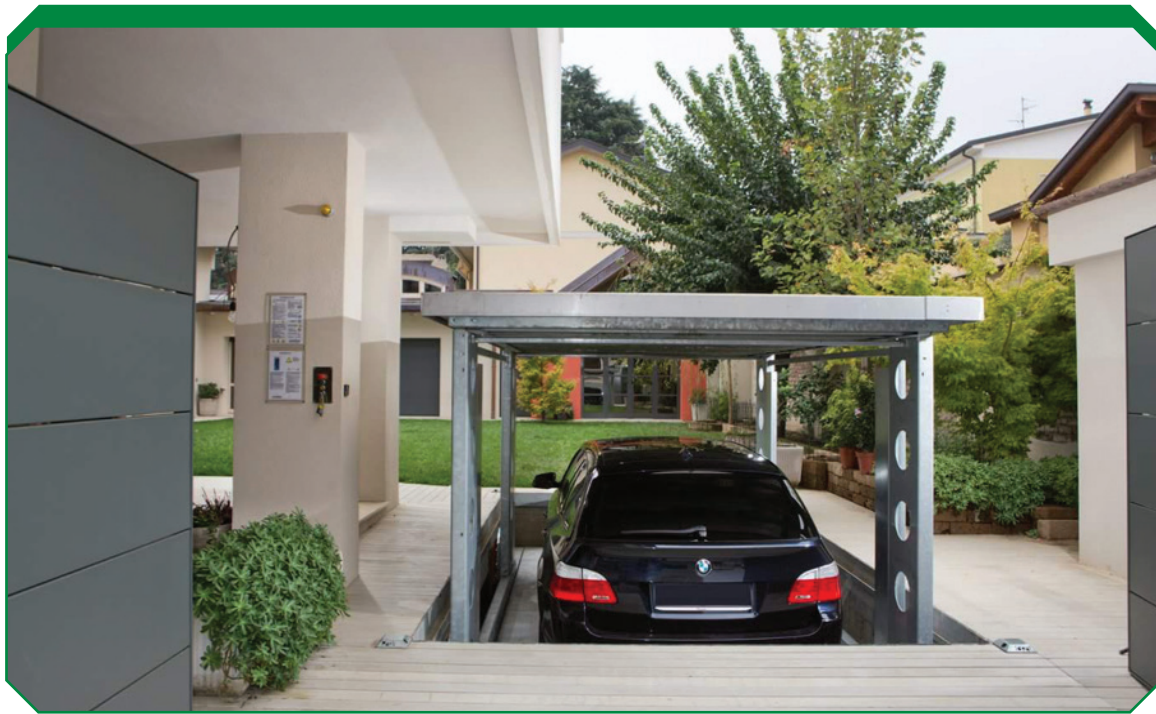

Service lifts are the ideal solution in restaurants, hotels, chemist's, hospitals, offices, shops and multi level houses for the easy and uncomplicated moving of packages, letters, medicines, crockery and cutlery.

Compact, flexible, quick & easy to install, this describes our lifts perfectly

IdealPark

Italian Technology

IdealPark is the ideal solution for any construction work where there are space problems for creating traditional access ramps to the garage or parking floors.

Let Your Project Be Ours

Maintenance: We undertake the task of maintaining elevators and escalators of multi brands in order to achieve a consistent high level of performance. The packages of comprehensive preventive maintenance ensure the proper functioning of the lifts and maintain the required level of safety for passengers.

Parts: We use genuine manufacturers' parts of multi brands. We keep readily at our warehouse the amount of spare parts deemed necessary for the proper operation of the units.

Modernization: Updating the old components allows adoption of the latest technologies and features for more enhanced safety, energy-savings, efficiency, and comfort.

High-Security Interlocking Doors

Interlocking SAIMA doors are designed to combine high security with the elegance of clear glass and of steel profiles with a personalized finish.

The anti-robbery doors series come in many different shapes and sizes.

Security Booths

Security booths, or anti-robbery booths, are designed by SAIMA for the highest level of security, offering a wide range of shapes, sizes and extra features. They are not only interlocking doors, but also armored units equipped with the most sophisticated anti break-in tools.

Automatic Sliding Doors

SAIMA Sicurezza automatic sliding doors can be constructed with the whole range of anti break-in devices- reinforced glass, double interlocking doors etc - and installed within limited space. The entire range of sliding pivot doors allows wheelchair access.

Automatic Pedestrian Gates

With an eye for sleek and sophisticated design, SAIMA Sicurezza has created a range of automatic pedestrian access control gates that combine the lightness of glass panels (swing or retractable) and the durability of a stainless steel body.
